DIMENSIONS	25" H x 28" L x 22" W (635 mm H x 711 mm L x 559 mm W)
WEIGHT	80 lbs. (36.4 kg.)
ELECTRICAL	115VAC or 240VAC, 50/60 Hz
OPTIONS	Conveyor/Stacker and Drop Tray
COUNTERS	One operator resettable job counter, one permanent lifetime counter
MEMORY	64MB

You know what addressing systems are worth to you. You want power and insist on dependability. You demand value.

The RENA Systems Envelope Imager 3.0 is a heavy-duty, full-featured addressing system designed for high performance and value. The 3.0 scores high with speed and flexibility. Print addresses, attention lines, postal bar-codes, return addresses and indicia in a single run. Turn out 7,200 #10 envelopes with nine lines of 600 dpi quality printing per hour.

You have four different qualities to choose from, so you can print three times as fast at a lower dpi if needed. Fully independent print heads can overlap into two printing areas. Take advantage of an inkjet cartridge storage compartment to extend the life of your cartridges and increase their yield.

You will appreciate the quality, performance and value of the new and improved RENA Systems Envelope Imager 3.0. Powerful processing, precision parts and all metal construction result in a system that's built to last. This system will meet the demanding load of your business for years to come.

KEY FEATURES

- **High speed inkjet addressing at productivity boosting speeds of 34,000 postcards/hr**

- **Extra large material hopper holds up to 750 #10 envelopes for less job interruption**

- **Built in clutch controlled heavy-duty feeder with electronic thickness adjustment**

- **3" print area from two fully independent 1.5" print heads with a 12" vertical range**
