

TABLETOP FRICTION FEEDERS

Consistent, even feeding of media for high volume runs. Secap feeders offer:

- Reliable friction technology
- Straight feeding of a wide variety of media
- Variable speed control for synchronous operation

TECHNICAL SPECIFICATIONS

MODEL FR170

Belt Speed: 5700 ipm

Media Size:

Width: 3.75" to 12"

Length: 3.75" to 12"

Thickness: .003" to .750"

Vertical Hopper: 24" high

Physical Characteristics:

Dimensions: 12"W x 14"D x 26"H

Weight: 41 lbs.

Power: 115 Vac, 60 Hz, 3A

Certification: CE Certified

MODEL FR250

Belt Speed: 7800 ipm

Media Size:

Width: 2" to 12"

Length: 3" to 12"

Thickness: .003" to 1"

Vertical Hopper: 18" high

Physical Characteristics:

Dimensions: 20"W x 15"D x 21"H

Weight: 47 lbs.

Power: 115 Vac, 60 Hz, 3A

Certification: CE Certified

MODEL FR270

Belt Speed: 9000 ipm

Media Size:

Width: 3.75" to 11.75"

Length: 2.5" to 14"

Thickness: .003" to .5"

Vertical Hopper: 24" high

Physical Characteristics:

Dimensions: 21"W x 13"D x 26"H

Weight: 59 lbs.

Power: 115 Vac, 60 Hz, 3A

Certification: CE

All Feeders Provide:

- Bottom Feeding
- Load "On the Fly"
- Start/Stop integration or external run capability
- Variable speed control

DETAILS

Secap's specialty friction feeders offer superior material handling for postcards, envelopes, folded media, single sheets and more. They are the perfect complement to our address printers & tabbers, offering continuous feeding of a wide variety of materials as well as straight and accurate alignment of media for greater productivity.

1. FR170 Feeder

This medium duty feeder offers superior feeding and precise separating of various types of media. The FR170 feeder comes equipped with a reliable product separator, variable angle feed belts, internal DC motor and dynamic braking. There is a 24" capacity media hopper with a simple two-knob width adjustment.

2. FR250 Feeder

The FR250 is a high capacity friction feeder offering exceptional alignment qualities with its extended media guides. Movable feed belts can be positioned for consistent, straight feeding for a wide variety of media.

3. FR270 Feeder

The FR270 Feeder is an exceptional heavy duty feeder used to increase the productivity of the workstation and is compact, fast, and simple to set up. Features a reliable and highly efficient product separator.

4. Popular Product Combinations

The SA5300 PRO address printer is perfect for use in-line with the FR250. Or add the FR170 to the Secap T-2000 tabber for superior feeding & tabbing productivity.
