T-350
HIGH SPEED
DUAL TABBER

The Envelope Imaging Company®

T-350 DUAL TABBER

TABBING SPEED	Up to 18,000 per hour (1 or 2 tabs, 8.5" x 11" tri-folds)
MATERIAL SIZE	MIN: 3-1/2" L x 5-1/2" W MAX: 9" L x 12" W (with built-in feed)
MATERIAL THICKNESS	Up to 1/8"
TAB SIZE	MIN: 13/16" L x 13/16" W MAX: 15/16" L x 13/16" W
TAB MATERIAL	Clear, Translucent or Paper
NUMBER OF TABS	Up to 30,000
SPEED CONTROL	Infinitely Variable with Position Guard
TAB ACCURACY	+/- 1/16"
FEEDER	Top-load, friction bottom-feed; removable hopper
HOPPER CAPACITY	300 Tri-folded Mailers
COUNTER	5-digit LCD (operator resettable)
TAB CONTROL	Sprocket-feed Precision Tab Placement
FEATURES	Control panel with easy to use design; Adjustable Tab Media sensor handles various types of materials & speeds
SAFETY	Power Interrupt Feed Switch; 1.6 Amp Slow Blow Fuse
DIMENSIONS	10 1/2" W x 15" H x 19" L
WEIGHT	40 lbs (18.2 kg)
ELECTRICAL	110VAC/60Hz/1A (optional 220VAC/50Hz/1A)
OPTIONS	RENA Fanfold Tabs, RENA TB Conveyors, RENACare Cleaner
DUTY CYCLE	30 million pieces total or 500,000 per month over a 5-year life cycle

Precision. It is what the T-350 Dual Tabber is all about. Our unique sprocket drive system is the most precise method for applying tabs to a moving mailpiece. The tab position shaft has a fixed position, so it can't change. What that means to operators of the T-350 is that once you set it up, it will precisely place the tabs from start to finish.

The T-350 is also one productive little tabber. Offering double-tab throughput speeds of 18,000 pieces/hr on tri-folded mailers, the T-350 gets more jobs done in less time. No more painfully slow hand-tabbing or running the same mailers through twice, the T-350 applies two tabs at the same time. It applies clear, translucent or paper RENA Fanfold tabs in a variety of sizes.

The T-350's quality is evident at first glance and the simplicity of setup will impress any operator. The built-in feeder runs a wide variety of materials up to 1/8" thick and has a detachable hopper so the T-350 can be used in-line. It uses our exclusive Fanfold tabs that come in convenient boxes of 30,000! Fanfolded tabs are easier to handle & setup. They also run more consistently than roll tabs.

The heavy duty aluminum and steel construction is engineered to give you years of reliable, high performance use. Contact your local RENA Systems dealer today and schedule a no-hassle demonstration. The T-350 Dual Tabber is sure to make your jobs easier, more profitable and more efficient.

KEY FEATURES

- **Apply 1 or 2 tabs (in clear, paper, translucent) with one versatile and affordable unit**
- **Tabs at speeds of 18,000/hr on most tri-folded mailers**
- **Helps you comply with USPS bulk mail regulations for folded mailers**
- **Runs Fanfolded Tabs for superior ease of use & performance**
- **Built-in friction feeder holds up to 300 mailers and has a hopper that comes off for in-line applications**
